

Jacob Heilesen

Software Development Student

jacobheilesen@gmail.com | (208) 520-0896

LinkedIn: [linkedin.com/in/jacob-heilesen](https://www.linkedin.com/in/jacob-heilesen)

Portfolio: jacobheilesen.github.io

SKILLS

Languages: Java, HTML, CSS, JavaScript

Tools: VS Code, IntelliJ, GitHub

Concepts: Object-Oriented Programming, Polymorphism, Loops and Conditionals, Web Development

PROJECTS

Mount Borah Adventure

Java GUI Application

- Built an interactive choose-your-own-adventure application in Java using a graphical user interface
- Implemented conditional logic and object-oriented design to manage story progression and user choices
- Gained experience debugging program flow and handling user input in a GUI environment

Jake's Outfitters

Interactive Website

- Designed and developed a responsive website for a fictional hunting outfitter using HTML, CSS, and JavaScript
- Implemented a client-side cost estimation feature allowing users to calculate trip pricing based on selections
- Focused on accessibility-aware design concepts for disabled and veteran users

EDUCATION

College of Western Idaho – Boise, ID

Software Development - Associate of Applied Science (Expected May 2027)

Relevant Coursework:

- Navigating Computer Systems
- Introduction to Programming
- Intermediate Programming
- Introduction to Web Application Development

EXPERIENCE

Scheels – Meridian, ID

Cashier | October 2023 – Present

- Delivered consistent customer service in a fast-paced retail environment while maintaining accuracy and attention to detail
- Processed high-volume transactions efficiently, minimizing errors and reducing customer wait times
- Resolved transaction discrepancies and customer issues by applying problem-solving and clear communication skills
- Collaborated with team members across departments during peak hours to ensure smooth store operations

Precision Landscape – Caldwell, ID

Equipment Operator | February 2023 – April 2023

- Operated heavy landscaping equipment while adhering to strict safety and operational procedures
- Supported efficient project execution by coordinating equipment use and material movement on job sites
- Maintained a strong safety record, contributing to a zero-incident work environment

Amazon – Nampa, ID

Packer | June 2021 – June 2022

- Met high productivity and quality standards in a fast-paced warehouse environment
- Maintained strong accuracy while packing items to meet strict quality requirements
- Assisted with training new team members, supporting faster onboarding and team efficiency
